

# CMP- Remote Desktop Access for Mac

You will need to first install the Microsoft Remote Desktop Application for Mac from the App Store

Once installed open the application and **Add a PC**

Input your PC name in this format (example)  
**cmplab1-xx.uea.ac.uk**

Enter your **UEA User** account in this  
box in the format **UEA\username**

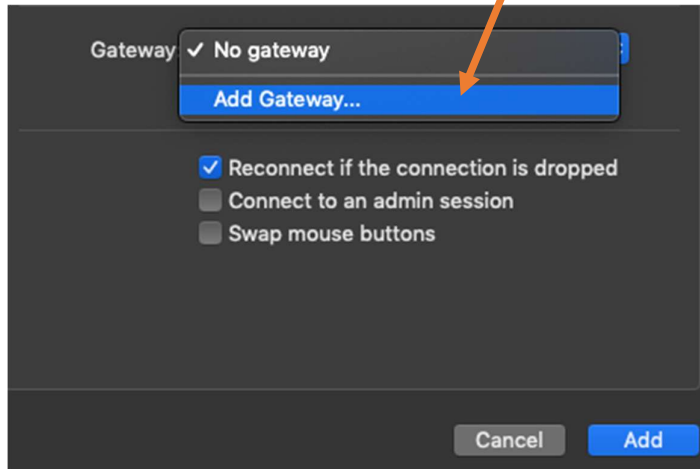

Click on the **Gateway** drop down box  
and select **Add Gateway...**

The image shows the "Add PC" configuration dialog box in the Microsoft Remote Desktop application. It has several fields and options:

- PC name:** A text field containing "cmplab1-01". An orange arrow points from the text "Input your PC name in this format" to this field.
- User account:** A dropdown menu showing "UEA\username". An orange arrow points from the text "Enter your UEA User account in this box" to this field.
- Gateway:** A dropdown menu showing "No gateway". An orange arrow points from the text "Click on the Gateway drop down box" to this field.
- General tab:** Includes a "Friendly name" field (set to "Optional"), a "Group" dropdown (set to "Saved PCs"), and a checked checkbox for "Bypass for local addresses".
- Advanced options:** Includes a checked checkbox for "Reconnect if the connection is dropped", and unchecked checkboxes for "Connect to an admin session" and "Swap mouse buttons".
- Buttons:** "Cancel" and "Add" buttons are at the bottom right.

# Adding the Remote Desktop Gateway Settings

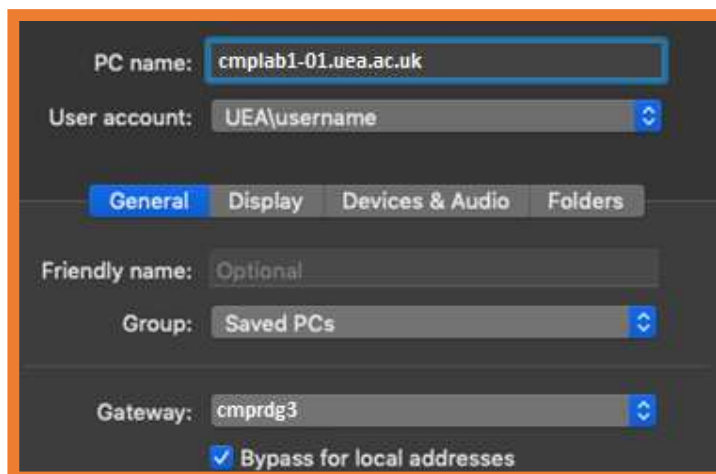

Click on the Gateway option and select **Add Gateway**

Type in the gateway detail as follows and click Add (**cmprdg3.uea.ac.uk**)

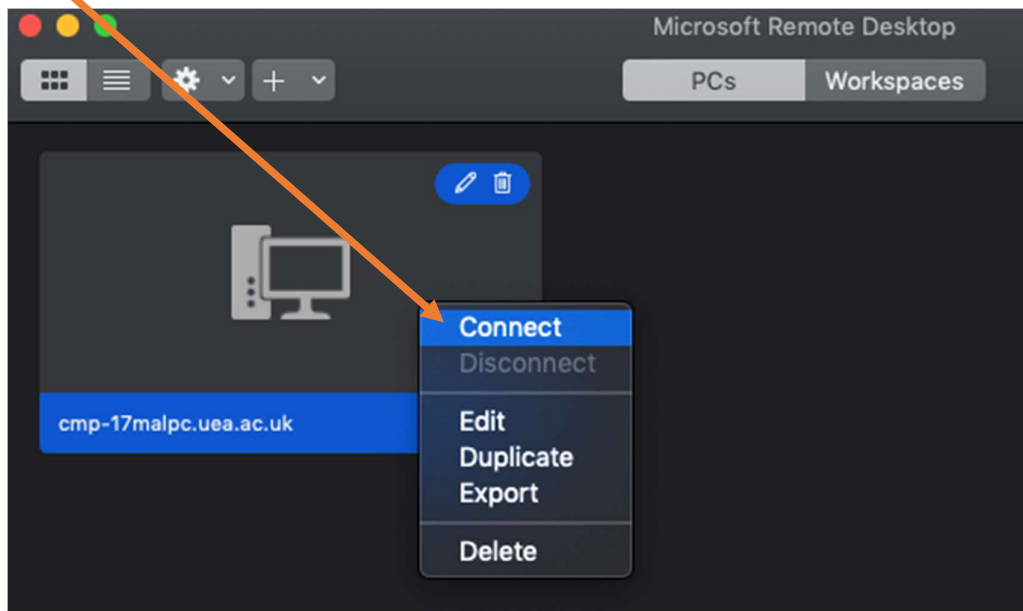

You should be placed back at the original settings page with settings that look like this:-

## Connecting to your UEA PC from Mac RD Client

Once you have completed all the steps above and the settings are added, save the PC and then click **connect** to initialise the remote connection.

You will then be asked to enter your user account details; this will need to be in the following format:

Username	<a href="#">username@uea.ac.uk</a> or UEA\username
Password	UEA Password
