Connecting Remotely to a CMP Lab PC

1. You will need to launch the <u>Remote Desktop Connection</u> application from your PC or Laptop. Click on the **show options** setting to change the configuration.

2. Choose a lab computer number from the list on the Wiki to connect to and add **uea.ac.uk** to the end, fill in the configuration details like the example below:-

Computer:	cmpsci-72.uea.ac.uk	
User name:	UEA\fmv12mdu	
Nemot	e Desktop Connection — 🗌	×
N	Remote Desktop Connection	
General	Display Local Resources Experience Advanced	
Logon se	tings Enter the name of the remote computer. Computer: cmpsci-74.uea.ac.uk User name: UEAVmv12mdu You will be asked for credentials when you connect.	
Connecti	Advertise to save clevenulas on settings Save the current connection settings to an RDP file or open a saved connection. Save Save As Open	
(a) Hide O	ptions Connect Help	

3. Then click on the advanced tab and click the settings box under "Connect from anywhere"

4. Choose the option **"use these RD Gateway server settings"** and input the following RD Gateway server settings:-

RDG server name:	cmprdg3.uea.ac.uk	
ND Gateway Server Set	tings	×
Remote Conne	Desktop ection	
Connection settings	D Gateway server settings	
Use these RD Gatewa	ay server settings:	
Server name:	cmprdg3.uea.ac.uk	
Logon method:	Allow me to select later	 I
Bypass RD Gatew	ay server for local addresses	
O Do not use an RD Gat	leway server	
Logon settings		
User name: None	specified	
You will be asked for cred Gateway server.	lentials when you connect to this RD	
🗹 Use my RD Gateway o	credentials for the remote computer	
	OK Cance	l

You can also tick the **"use my RD Gateway credential for the remote computer"** so you don't have to input your UEA credentials twice.

5. Once you have entered all the details click ok and go back to the general tab from the top toolbar. Then click on the **save as** option to save a copy of the remote desktop configuration.

Logon s	ettings Enter the nam	e of the remote computer.	
000	Computer:	cmpsci-74.uea.ac.uk	~
	User name:	UEA\fmv12mdu	
	You will be as	ked for credentials when you connect	
	You will be as	ked for credentials when you connect o save credentials	20 1) 9

Connect	You will be as Allow me t ion settings Save the curr saved connect	ked for credentials when you connect o save credentials ent connection settings to an RDP file ttion.	or open a

6. Once saved run the shortcut or click connect from the Remote Desktop Connection Window

7. You will then be confronted with a warning message. Click connect, you can tick the box **"don't ask me again** "if you wish.

8. You will then be prompted to enter your **UEA username** either like this **UEA\fmv12mdu or fmv12mdu@uea.ac.uk** and then your **UEA password.**

Windows Security	×
Enter your credentials	
These credentials will be used to connect to the following computers: 1. cmprdg3.uea.ac.uk (RD Gateway server) 2. cmpsci-7.uea.ac.uk (moto computer)	
fmv12mdu	
UEA PASSWORD	
UEA\fmv12mdu	
Remember me	
More choices	
OK Cancel	

You may well be prompted to do the same once you authenticate on your UEA PC *(unless you have ticked the checkbox in the RD Gateway Settings)*

9. Remote Desktop should now connect and launch the **CMP Lab PC Desktop**. You can now work on this as if you were sitting at a Lab computer.
